

Confirmation of Reading the Thesis Guidelines

To whom it concerns,

I confirm that I have read and understood the following guidelines

- writing a thesis in the computational electromagnetics group¹. The guidelines contain essential information regarding the structure, formatting, and other requirements of the thesis, as well as the academic standards expected
- information on how to organise your final thesis from the department of electrical engineering and information technology²
- information from the study field computational engineering³
- information sheet for external theses at TU Darmstadt⁴

I understand that it is my responsibility to adhere to the guidelines throughout the writing process and that failure to do so may affect the assessment of my dissertation. Should I have any questions or need clarification, I will contact the supervisors for assistance.

Sincerely,

Supervisor
